

SKY RC-PL ALKALI

Sky RC-PL ALKALI is a reduction agent which active in alkali condition and can be used on RC process (Reduction Clearing) as reductor.

Special Feature **Sky RC-PL ALKALI**

- Can reduct unfixed dyestuff on fabric.
- Can improve fastness through the RC process in alkaline condition.
- Reduction capacity almost proportional with Sulfite group ($\text{Na}_2 \text{S}_2\text{O}_4$)

General Characteristic **Sky RC-PL ALKALI**

Appearance	: Liquid
Colour	: Transparent
Ionic	: An - Ionik
PH	: 10 - 11
Solid Content	: 8 %
Solubility	: Dissolved easily
Storage	: 3 Months

Application **Sky RC-PL ALKALI**

R/ Sky RC-PL ALKALI	: 1 – 2 gr/ltr
NaOH 48°Be	: 2 - 4 gr/ltr
Temperature	: 80 ° C x 20'
Packing	: 120 kg
