

# Sky Colour Fastness

## Sky Colour Fastness

used in dyeing process especially for dark colour, ( the concentration of disperse dyestuff above 5 %), Sometime we see the colour fastness after dyeing with disqualification criteria. **Sky Colour Fastness**, can help overcome the problem

## Special Feature

- Can increase washing fastness after dyeing.  
( Multifiber on Asetat fiber, Nylon, Poliester )
- Will not change colour.

## General Characteristic

Physical form	: Brown solution
pH	: 4
Sc	: 60
Solubility	: Dissolved easilly
Storage	: Well-preserved until 3 months

## Usage Direction

- 2 gr/ltr – 10 gr/ltr

Exhaust

R/	Zw	: x %	
	Sky Dislev	: 0,5 - 1	gr/lt
	Sky Colour Fastness	: 2 - 10	gr/lt
	Sky Acid	: pH 4 - 5	
	Temperature	: 130 ° C x 45 '
